# NATNAEL GETACHEW

## FULL STACK WEB DEVELOPER

# PROFILE

Detail-oriented and innovative web developer with hands-on experience building responsive, full-stack applications. Skilled in Laravel, React.js, MySQL, Tailwind CSS, Bootstrap, and RESTful APIs, with practical knowledge of Postman for API testing and debugging. A natural collaborator who thrives in team settings—both in tech and in sports—bringing strong communication, adaptability, and strategic thinking from soccer and basketball into every development project. Committed to creating scalable, user-focused solutions that drive real-world impact.

# WORK EXPERIENCE

●

Adika Taxi Services PLC.

JUL- SEPT 2024

Full Stack Web Developer

- Designed and developed a full-stack driver registration system at Adika Taxi PLC—leveraging Laravel for RESTful API development and backend logic, React.js with JSX for dynamic user interfaces, MySQL for structured data management, and Tailwind CSS alongside Bootstrap for responsive and modular styling. Utilized Postman extensively to test, debug, and document API endpoints, ensuring robust integration between frontend and backend components
